Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 31 August 2004 has been entered.

Status of Claims

Applicant has canceled claims 5-17 in the amendment filed on 31 August 2004 and added new claims 18-40. Thus, new claims 18-40 are presented for examination on the merits.

Response to Arguments

Applicant's arguments with respect to claims 5-17 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 18-40 are rejected under 35 U.S.C. 102(e) as being anticipated by Kasai et al. (hereinafter Kasai), U.S. Patent 6,058,382.

As per the following claims, Kasai discloses:

18. (new) An electronic money system comprising: a plurality of electronic money terminals, an electronic money terminal of said plurality of electronic money terminals receiving electronic money log data from an electronic device, said electronic money log data including electronic money, for the purchase of a commodity or the reception of a service, said electronic money terminal receiving a transaction amount and a payment method indication, said transaction amount being said purchase price of said commodity or the monetary value of said service, said payment method indication indicating payment of said transaction amount using said electronic money or installment payments, wherein said electronic money terminal updates said electronic money log data with said transaction amount when said payment method indication indicates said payment by said installment payments, wherein said updated electronic money log data is stored within said electronic money terminal, and wherein said electronic device stores said updated electronic money log data (column 1, line 50-column 2, line 33; figure 1 and associated text).

19. (new) The electronic money system according to claim 18, wherein said electronic money terminal updates said electronic money log data by decrementing said electronic money in the amount of said transaction amount when said payment method indication indicates said payment by said electronic money (column 3, lines 20-34; columns 5-6; figure 1 and associated text).

Art Unit: 3621

20. (new) The electronic money system according to claim 19, wherein, when said transaction amount is greater than said electronic money, the difference between said transaction amount and said electronic money is stored within said electronic money terminal as credit card transaction information.

21. (new) The electronic money system according to claim 20, further comprising: an electronic money management block that captures electronic money log data stored within each money terminal of said plurality of electronic money terminals (column 6, lines 35-65).

22. (new) The electronic money system according to claim 21, wherein said electronic money management block calculates the sum total transaction amounts for said electronic device during a particular time interval (figure 2 and associated text).

23. (new) The electronic money system according to claim 21, wherein said electronic money management block sends to a bank or credit company the sum total amount of credit card transaction information for said electronic device during a particular time interval (figure 1 and associated text).

24. (new) The electronic money system according to claim 18, wherein said electronic money terminal stores therein electronic money log data for prior usages of said electronic device (column 3, line 35-column 4, line 20).

Art Unit: 3621

25. (new) The electronic money system according to claim 18, wherein said electronic money terminal receives electronic money log data from another electronic device (column 3, lines 36-40).

26. (new) The electronic money system according to claim 18, wherein said electronic money terminal receives other electronic money log data from said electronic device (column 5, lines 64-66).

27. (new) The electronic money system according to claim 18, further comprising: a deposit terminal that receives currency and transmits amount data to said electronic device, said amount data representing the monetary value of said currency being transmitted, said electronic device using said amount data to increment electronic money in the amount of said monetary value (figure 3 and associated text).

28. (new) The electronic money system according to claim 18, wherein said electronic device is a portable terminal (column 4, lines 40-56).

29. (new) The electronic money system according to claim 18, wherein said electronic device is an information card (column 2, lines 31-33).

Art Unit: 3621

30. (new) The electronic money system according to claim 29, wherein said information card is a contact less information card that sends and receives said electronic money log data in a contact less manner (column 4, lines 36-41).

Claims 31-40 are directed to a method according to the system above and are rejected under the same cited reference.

Examiner has pointed out particular references contained in the prior arts of record in the body of this action for the convenience of the applicant. Although the specified citations are representative of the teachings in the art and are applied to the specific limitations within the individual claim, other passages and figures may apply as well. It is respectfully requested from the applicant, in preparing the response, to consider fully the entire references as potentially teaching all or part of the claimed invention, as well as the context of the passage as taught by the prior arts or disclosed by the examiner.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

- U.S. Patent No. 5,949,880 to Curry et al.
- U.S. Patent No. 6,185,545 to Resnick et al.
